Policy for Student Feedback on Facilities

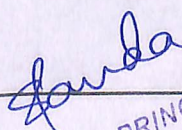

Based on the Library Resources facilities, the policy for student feedback

One of the most crucial amenities for a student of engineering is the library. The Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex library policy is outlined in full below for student feedback:

1. POLICY STATEMENT: For students to advance their academic and professional knowledge, a modern, well-stocked library is one of their most basic needs. This policy strives to construct a thorough feedback system that meets that need. The policy aims to solve any potential problems with the student library.

2. GOALS: The feedback policy on library facilities aims to implement practical solutions for maintaining and enhancing the current infrastructure. These goals have been determined to accomplish this result:

- i) To give students access to a well-stocked, up-to-date library.
- ii) To upgrade the library's current amenities, such as remote access to e-journals and eBooks.
- iii) To create a library for the students that meets both their academic and professional needs.
- iv) To give the pupils access to a library with sufficient facilities.

Based on the canteen facilities, the policy for student feedback

A student in an engineering college's life depends heavily on the canteen. An extensive policy outline for students' comments on the canteen facilities at Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex is provided below:

1. POLICY STATEMENT: This policy intends to provide a thorough feedback system that addresses the requirement to give students—day scholars or boarders in hostels—nutritious, wholesome, and delectable cuisine.

2. GOALS: The feedback policy aims to put into practice practical solutions that improve the institute's academic environment. These goals have been determined to accomplish this result:

- i) To give the students access to a canteen that delivers delectable, wholesome meals.
- ii) To offer a canteen with a variety of dishes to the students.
- iii) To give the students access to a canteen that is conveniently situated and accessible.
- iv) Providing a canteen with the necessary amenities for the pupils.

Based on Internet facilities, the student feedback policy

All the stakeholders in an engineering institute must have access to the internet. The Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex has the following specific policy framework for student input on internet facilities:

1. POLICY STATEMENT: The goal of this policy is to create a thorough feedback system that addresses one of the most important facets of an engineering student's life. A student's ability to advance both academically and professionally depends on having a solid internet connection. The policy aims to resolve any potential problems with the students' internet connections.

2. OBJECTIVE: The feedback policy on internet facilities aims to implement practical solutions for maintaining and enhancing the current internet facilities. These goals have been determined to accomplish this result:

- i) To offer kids free, quick internet access in the school.
- ii) To upgrade the current internet infrastructure.
- iii) To give the kids access to a sufficient coverage area of the internet.
- iv) To give pupils access to an internet facility with constant connectivity.

The Student Feedback Policy is based on Sports Facilities

An engineering institute needs to provide sports facilities for its students. The Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex's comprehensive policy outline for student comments on the school's sports facilities is provided below:

1. POLITICS STATEMENT: This strategy intends to provide a thorough feedback system that addresses one of the fundamental needs for the kids' overall development—a suitable sports facility. The policy aims to resolve any potential problems with the student athletes' sporting facilities.

2. GOALS: The institute's feedback policy on sports facilities aims to implement practical steps for maintaining and enhancing the institute's sports facilities. These goals have been determined to accomplish this result:

- i) To give pupils access to contemporary indoor and outdoor playing areas.
- ii) To upgrade the current sporting venues.
- iii) To give the students access to well-kept playing fields.
- iv) To give the pupils access to facilities for the track and field sport category.
